

Archival, documentary and campaigning materials available from INNATE

The two INNATE websites <https://innatenonviolence.org/> (this, the 'main' INNATE website) and <https://www.flickr.com/photos/innateireland> (the INNATE photo and documentation site) have a substantial amount of material available on a broad understanding of peace, nonviolence and related matters. The following listing can only be considered partial but it is indicative of the contents; it is listed alphabetically in relation to each site.

As always, INNATE is happy to consider additions to its online material. Please contact innate@ntlworld.com

With a total of nearly two and a half thousand entries (as of January 2023), finding what you might want, or be most interested in, can be difficult so it is recommended that most users go to the 'Albums' (groupings of photos/entries on a theme). Below is a listing of the albums and their main content, however when clicking on 'Albums' online they are not listed alphabetically so you will need to scroll down to the ones you want. Some albums are very limited but photos are grouped this way to make them more accessible. Album can overlap, i.e. one entry can appear in a couple, or more, albums.

You can also use the word search facility in the top menu bar and this is useful where there is no obvious album to search or you are looking for a specific person or organisation not featured as an album. Where possible website links are given. Information about use of the material featured appears on the site (under 'About' on the top menu bar)

INNATE main website (*this one*)

<https://innatenonviolence.org/>

Materials passed to PRONI

INNATE has passed older archival material to the Public Record Office for Northern Ireland (PRONI) which is based in the Titanic Quarter in Belfast. The volume would be equivalent to about 7 boxes of material of 45 x 35 x 30 cm. A small amount of this material appears digitally in the INNATE photo and documentation site on Flickr <https://www.flickr.com/photos/innateireland>

Since it requires attendance at PRONI to access this material no comprehensive listing is given here but a full list of material passed to PRONI is available on request to innate@ntlworld.com What follows is a brief indication of its contents. The PRONI reference numbers for the material are D4828 (deposited 2021) and PTE 83/2022 (for additional material deposited in 2022). It includes Northern Ireland 'peace and reconciliation' material as well as internationally-related peace material from both sides of the border in Ireland

D4828

Includes dated peace movement ephemera (leaflets, cuttings, papers etc) from 1970s to 2018 and a wide variety of specific files and some photos.

PTE 83/2022
