

**IF THEY CAN  
PEACE IT  
TOGETHER.....**

## **25 YEARS OF PEACE IN IRELAND: A ROADMAP TO ENDING THE CONFLICT IN UKRAINE?**

We're right to celebrate our Peace Process. Where would this island be today if we had

- supported 'The Side that's uniquely right';
- encouraged 'Our Side' to crush its enemies;
- seen 'the Other Side' as the embodiment of evil;
- poured ever deadlier weapons into the conflict;
- demonised any other approach?

The bloody vicious circle would have continued.....

The Irish constitution commits us to “the pacific settlement of international disputes”. As a neutral state, we should propose our Peace Process to the UN Security Council as a framework for Peace between Ukraine and Russia.

A Peace Deal was almost agreed in April 2022 – only to be scuppered by Johnson and Biden. Hundreds of thousands have since been needlessly killed.

Talking, exploring, negotiating is the way forward. It won't be easy, but it is worth doing.
